**MT130  
Olfa Silver Knife.**  
The original Olfa Stainless Steel Knife.

**MT133  
Red Dot Stainless Steel Knife.**  
One of the finest professional knives available, the blade can be advanced in 1/2 segment increments for precision control, and includes a stainless steel blade.

**MT131  
Olfa Yellow Knife.**  
Used for film pattern cutting and trimming. Features a molded plastic handle for maximum control and comfort.

**MT132  
Olfa Ergonomic Knife.**  
This ergonomically correct knife feature a comfortable rubber grip for better control and less fatigue.

**MT130-B  
Auto Lock A250 Knife.**  
Chemical and heat resistant polypropylene grip. Ratchet auto-lock slider locks blade in place while cutting.

**MT130-C  
Auto Lock A300 Knife.**  
All purpose standard duty utility knife with stainless steel sliding holder and sturdy aluminum die cast grip for long lasting use. Ratchet auto lock slider locks blade in place while cutting. End cap also functions as a blade snapper.

**MT177  
Heavy Duty Knife.**  
Heavy duty knife with breakaway points for use with security films 7 mil or greater. Blade storage in handle.

**MT301  
Olfa Xtra H/D-1 Knife**  
Extra heavy-duty sure grip cutter features a ratchet wheel blade lock to prevent slipping, rubber grip insert for positive handle control and a rope loop. Perfect for cutting through difficult materials. Features heavy gauge stainless steel blade channel that holds blade tight.

**MT130-D  
Auto Lock A1000 Knife**  
Cartridge Cutter with aluminum die-cast grip. Cartridge holds up to 5 blades

**MT131-P  
Olfa Pro Load Knife.**  
Holds up to 5 blades at a time giving you 65 new cutting segments per load

**MT134  
NT Cutter.**  
Comes with two 30 degree blades installed but will accommodate standard 9 mm blades as well. Used for film pattern-cutting and trimming. Holds 5 blades for automatic blade replacement capabilities.

**MT130-A  
Olfa Graphic Knife.**  
Stainless steel body with a 30 degree angle blade for precision in pattern cutting. Great for graphics and paint protection.

**MT129  
Plastic Knife.**  
The plastic utility knife is used for film pattern cutting and trimming.

**MT177-A  
NT Heavy Duty Knife.**  
NT Heavy duty knife with ratchet auto-lock slider which locks the blade into place while cutting. Use with 7 mil or greater films. Blade storage in handle.

**MT173  
Olfa Stainless Steel Blades  
Pack 50**

The Industry standard when it comes to snap blades for film and pattern cutting. Thirteen cutting edges per blade. Fits most standard knives.

**MT168  
Olfa Stainless Steel Blades  
Pack 10**

The industry standard when it comes to snap blades for film and pattern cutting. Thirteen cutting edges per blade. Fits most standard knives.

**MT171  
Single Edge Razor Blades 100**

Use in any 1" blade holder. Carbon steel single edge blade, non-rust aluminum back

**MT174  
Plastic Razor Blades Pack of 100.**

Perfect for removing leftover film and adhesive from surfaces that are easily damaged, such as rear window defrosters or other sensitive glass.

**MT303  
Olfa Large Snap-Off Blades.  
Pack of 50.**

The Olfa Large Snap-Off blades are non stainless steel, heavy duty. 8 cutting edges per blade strip.

**MT302  
Olfa Large Snap-Off Blades.  
Pack of 10.**

The Olfa Large Snap-Off blades are non stainless steel, heavy duty. 8 cutting edges per blade strip.

**MT175  
6" Triumph Carbon Blades  
Pack 25.**

Carbon steel offers strong capable scraping that lasts longer than stainless steel but rust more easily. Use this blades for scraping adhesive and other debris from glass surfaces. Double edged for more scraping per package and fits any of the standard 6" triumph scrapers.

**MT176  
6" Triumph Stainless Steel  
Blades Pack 25.**

Long lasting rust resistant stainless steel blade. Perfect for removing adhesive and other debris from glass surfaces. The double edge blade offers more scraping than other blades.

*We offer all our customers the best quality window film at competitive prices.*

# Blades

Blades

**MT172  
4" Scraper Blades**  
Fits 4" scrapers. Pack of 10.

**MT117  
3" Triumph Blades**  
**Pack of 10.**  
Handy blades are professional quality in a compact size. Carbon steel is the sharpest and strongest blade for long lasting scraping. Fits all handy scrapers.

**MT303-LBB  
Olfa Ultramax 8pt Blades**  
Replacement blades for MT177 and MT-177-A heavy duty knives. Triple-honed for extremely sharp edge. Ideal for cutting thick films, 7 mil or greater. Pack of 50.

**MT302-Blade  
Olfa Xtra H/D Blades.**  
Has 7 cutting edges per blade. Security film, leather, rubber, drywall and plywood won't stand a chance with these blades. Pack of 20.

**MT168-D  
Olfa 30 Degree Carbon  
Blades.**  
Standard duty acute angle snap-off blade for use when precision is a must. Seven cutting edges per blade strip. Pack of 10.

**MT168-A  
8 Point Blades**  
18 mm replacement blades. Fits MT177 and MT177-A Pack of 5

**MT133-B  
NT Stainless Steel Snap  
Blades**  
Stainless steel snap blades from the makers of the Red Dot knife. Use in 9 mm and multi-blade cartridge knives. Pack of 50

**MT131-PBLADE  
Olfa Ultramax Carbon Steel  
Blades**  
Standard duty snap-off blades, 13 cutting edges per blade strip. Pack of 10

**MT131-P Blade 50  
Olfa Ultramax Carbon Steel  
Blades.**  
These blades are double-honed for extreme sharpness and are 25% sharper than the standard duty carbon blade. Eight cutting edges per blade. Fits most standard Olfa knives. Pack of 50.

**MT111**  
**6" Angled Triumph Scraper.**  
The handle is tilted at a 30 degree angle. Includes cover and one double-edged blade.

**MT116**  
**6" Triumph Scraper**  
Lightweight and maneuverable. Includes cover and one double-edged blade.

**MT111-RA**  
**6" Angled Triumph Scraper Soft Grip.**  
An improved version of the standard 6" Triumph scraper with rounded corners for a more comfortable grip and tilted handle. Includes cover and one double-edged blade.

**MT116-R**  
**6" Triumph Scraper Soft Grip.**  
An improved version of the standard 6" Triumph scraper with rounded corners for a more comfortable grip. Includes cover and one double-edged blade.

**MT118**  
**3" Triumph Scraper.**  
Smaller version of the regular Triumph. Designed to fit perfectly into corners.

**MT112**  
**Clip Scraper.**  
This scraper will accommodate standard or stainless steel 1" single edge blades as well as plastic razor blades.

**MT114-L**  
**4" Scraper w/Long Handle.**  
4" scraper with extended handle allowing for better leverage. Includes blade cover.

**MT119**  
**Mini Scraper.**  
Holds 1" single edge blade.

**MT115-B**  
**Retractable Razor Scraper Hyde.**  
Retractable safety scraper. Intermediate blade position keeps the blade from sliding out while in use.

**MT115**  
**Retractable Razor Scraper Allway**  
Intermediate blade position keeps the blade from sliding out while in use.

**MT140-S**  
**8" Silver Security Squeegee**  
Comfortable, ergonomic handle is design specially for security film installation.

**MT116-C**  
**6" Triumph Blade Cover**  
The Triumph blade cover is for the 6" Triumph scraper.

**MT142  
Bulldozer Auto**

Allows you to get to those hard to reach areas. Such as behind speakers, brake lights, low angles and rear windows.

**MT143  
Bulldozer Flat Glass.**

Features reinforced ribs on the back side for extra rigidity and leverage. The Bulldozer Squeegees have a new rubber compound for less slip resistant, a flatter blade for better water extraction and added plastic under the blade corners for additional strength.

**MT312  
Big Foot**

Specifically designed to remove water from the lower portion of rear windows. Features a flex-firm blade molded right into the long flattened tennis racket style handle. The handle is wrapped with genuine Head Softac traction grip material. Reaching the lower deck of back windows easier. Measures 15" from blade tip to handle end.

**MT313  
Slim Foot**

Modeled after the Big Foot squeegee, the Slim Foot has a slender design that can reach into tighter openings. This squeegee helps reach behind brake lights and has a rubber grip for secure handling. Measures 15" from blade tip to handle end.

**MT224  
6" Replacement Blade  
without Angle**

**MT223  
8" Replacement Blade  
without Angle**

Used as means of removing application solutions from beneath the film during the installation of all flat glass film types.

**MT108-6Blue  
6" Blue Max Blade  
MT108-8Blue  
8" Blue Max Blade  
MT108-10Blue  
10" Blue Max Blade  
MT108-12Blue  
12" Blue Max Blade**

Use in the Unger squeegee channel for maximum water removal.

**MT108-6B  
6" Black Rubber Blade  
MT108-8B  
8" Black Rubber Blade  
MT108-10B  
10" Black Rubber Blade  
MT108-12B  
12" Black Rubber Blade  
MT108-18B  
18" Black Rubber Blade**

Use in the Unger squeegee channel for window cleaning.

**MT108-6CH  
6" Pro Blade Channel  
MT108-8CH  
8" Pro Blade Channel  
MT108-10CH  
10" Pro Blade Channel  
MT108-12CH  
12" Pro Blade Channel  
MT108-18CH  
18" Pro Blade Channel**

Used in the glass flat cleaning process and in the final cleanup after the film installation to remove soap streaks or smudges

**MT224-6  
6" Power Squeegee without  
Angle.**

**MT224-8  
8" Power Squeegee without  
Angle.**

An installation squeegee as a ready to use assembly. Used to remove application solution during the installation of all flat glass film types.

**MIDAS  
WINDOW  
FILM™**

# Handled Squeegees

Handled

**MT107-E  
Unger Ergotec Handle**  
Features a spring mechanism for quick blade changing and a finger indent on the top of the handle for complete control. For use with channels with black or blue rubber for cleaning.

**MT107  
Under Pro Handle.**  
The original Unger Pro Handle. For use with the channels with black rubber for cleaning or blue Replacement blades.

**Beveled Edge**

**MT183A  
5" Blue Max Squeegee with angle**

Installation squeegee for automotive and flat glass applications. Great for water removal.

**Square Edge**

**MT183  
5" Blue Max Squeegee.**  
Ideal for installing security film.

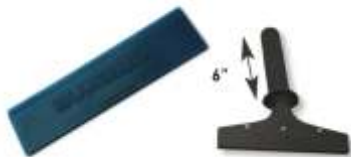

**MT183 AA  
5" Angled Blue Max Squeegee.**  
Installation squeegee for automotive and flat glass applications. Excellent for water removal.

**MT184-A  
5" Orange Crush Blade**  
**MT184-B  
5" Orange Crush Blade Angled**  
**MT184-C  
8" Orange Crush Blade**  
These blades help expel water while keeping their strength. The Orange Crush conforms to curved glass.

**MT107-C  
5" Fusion Handle**  
**MT107-S  
5" Fusion Short Handle**  
These handles are designed to optimize your leverage in removing mounting solution. Great for high performance automotive films and smaller residential windows.

**MT107-B  
8" Fusion Handle**  
**MT183A-8  
8" Blue Max Squeegee with Angle**  
Ideal handle for all residential and commercial applications. Holds any 1/4" thick squeegee blade. Perfect for flat glass installs for great water extraction.

**MT311-S  
Short-Cut**  
Short-Cut is a tool designed for reaching deep in to the window edge past the dot matrix. Extraordinary rigidity, excellent grip, yet nice and compact.

**MT300-W  
Whale Tail Squeegee**  
Great for getting behind brake lights and back window applications.

**MT300-A  
Titan Squeegee**  
Titan is made with the same plastic used to make bullet proof glass. This allows more strength and rigidity. The overall length is 14 3/4" which allows a longer reach for rear windows and its unique design will easily lift inner and upper door seals.

*We offer all our customers the best quality window film at competitive prices.*

# Handled Squeegees

Handled

**MT311-B  
EZ Reach Blue**

An extension of the original EZ Reach. The blue is the most slippery of the EZ Reach family.

**MT156  
5" Clear Max Squeegee  
MT156-B  
Angled Clear Max Squeegee**  
Different version of the Blue Max Squeegee, more flexible for back window installations.

**MT311-Blue  
Tri-Edge Blue  
MT311-O  
Tri-Edge Orange  
MT311-Red  
Tri-Edge Red  
MT311-Yellow  
Tri-Edge Yellow**

Precision angles, smooth edges and a comfortable grip. Tri-Edge features a rubber squeegee edge to help prevent dirty water returning to any open surface.

**MT165  
Hard Card Sharpener**

A must have to keep hard card and other squeegee edges smooth.

**MT311-PS  
Platinum Smart Card**

The modern version of the hard card squeegee, wider, with a tapered tip, comfortable grip and thin squeegee edge. Great for sliding under gaskets and seals.

**MT311  
EZCorner Tool Gold (FlexFirm)  
MT311-P  
EZCorner Tool Platinum (hard)**

Designed specially to get at the corners of quarter glass windows, you will also reach for it again and again to put down those little corners of film in hard to access areas.

**MT316-G  
Tail Fin Green (Soft)  
MT316-Y  
Tail Fin Yellow (Firm)**

Great for getting behind brake lights and back window applications. Finger holes make holding onto the Tail Fin easy.

**MT 107-H  
Fusion Hand Tool**

The Fusion Hand Tool is a magnetic handle that can accommodate any 5" squeegee. Equipped with a removable jaw and a rounded grip to fit perfectly in your hand.

**MT311-R  
The Reach**

The Reach is designed to effectively squeeze water from the most difficult places to reach. The Reach allows you to squeeze water from the bottom of the back window or windshield with ease.

**MT184-P  
5" Pink Clean Blade**

This blade is specifically designed with cleaning in mind. It is recommended to use the Pink Clean squeegee blade to easily remove liquids with minimal pressure applied by the user.

**MT300  
Swiper Squeegee**

A great tool for the lower edge of rear windows and behind break lights.

**MT300-B  
The Stroke Doctor  
MT300-BBLADE  
Replacement Blade for Stroke Doctor.**

Designed with an I-beam construction handle that features an ergonomic slip-resistant grip and longer blade to apply pressure more evenly in the most hard to reach places.

*We offer all our customers the best quality window film at competitive prices.*

WINDOW  
FILM™**

# Handled Squeegees

Handled

**MT159  
Slammer**

Used for cleaning corners and along gaskets, wicking water out along borders and easily reaches rear windows.

**MT317-GI  
Gator Blade I  
MT317-GII  
Gator Blade II**

The Gator Blade I and II are alternatives to the Lil Chizler. Each has a unique shape to give you a better grip making it easier to apply pressure.

**MT153-P  
Little Chizler Pink**

Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles.

**MT153L-W  
Large Chizler White**

Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles. The White Chizler is slightly larger, has thicker edges and is harder than the pink and yellow.

**MT153L-Y  
Large Chizler Yellow**

Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles. The Yellow Chizler is more flexible than all the others.

**MT160  
Conquerer Squeegee**

**MT160-A  
Blue Conquerer**

The Conquerer is the original corner reach tool. Features a soft squeegee blade along one edge and pointed hard card tips on the ends making it a versatile staple to any tool kit. The Blue Conquerer has a harder blade.

**MT147  
6" Block Squeegee**

**MT149  
12" Block Squeegee**  
Combination squeegee with hard card used for finishing during film installation. Can be cut to various angles to reach tight, sharp corners.

**MT309-G  
Green Contour (Soft)  
MT309-PE  
Peach Contour (FlexFirm)  
MT309-P  
Platinum Contour (Hard)  
MT309-Y  
Yellow Contour (Flex-Firm)**

Designed to match all those concave surfaces. Great for window film, paint protection film or vinyl. The elongated triangular shape gets into all those hard to reach areas.

**MT158-Y  
Yellow Diamond Squeegee**

Designed to meet the challenge of hard to reach areas, with square edges and 20 degrees angled corners on both sides. The raised area in the center gives you a secure, slip resistant grip, even when wet. Ideal for bumping edges and hear shrinking because of the high heat-resistant material.

**MT314-Y  
Power Stroke Yellow**

The original hand held molded squeegee, designed to fit comfortably in your hand. Works well with dyed films and first pass on metal films.

**MT192  
Quick Foot Yellow (Hard)**

**MT193  
Quick Foot White (Flex-Firm)**

**MT194  
Quick Foot Blue (Soft)**

A stiff squeegee with a handle for jobs that require medium reach. Slim and trim with an unwrapped handle.

**MT310-B  
Little Foot Blue (Soft)**

**MT310-BL  
Little Foot Black (Hard)**

**MT310-R  
Little Foot Red (Flex-Firm)**  
Fits comfortably in your hand and features an angled, long-reach tip that gets behind gaskets and rubber seals easily. The pointed edge of this tool allows the installer to squeegee in very tight areas. Has plenty of room to keep a good grip on the squeegee.

*We offer all our customers the best quality window film at competitive prices.*

**MT122**  
**5 Way Tool White**

**MT123**  
**5 Way Tool Grey**  
**MT123-BLK**  
**5 Way Tool Black**

Use these tools as a trim guide or wrap in paper towels and use as a bump tool. Each of these offers unique shapes and corners.

**MT255**  
**Red Window Film Tape**

Use to re tape film rolls for storage, (1/2"x60 yards per roll)

**MT307**  
**1/2" Black Out Tape 150'**

**MT308**  
**1" Black Out Tape 150'**

Black matte vinyl used to hide light gaps along edges of film installations.

**MT113**  
**Do Not Roll Down Stickers**  
**(1000 per roll)**

Perfect as a reminder on new auto installs. Features low-tack adhesive.

**MT161**  
**Fine Tip Black Out Pen**  
**MT163**  
**Wide Tip Black Out Pen**

Used by installers to hide fine line mistakes in trimming which causes light intrusion at the film edge.

**MT162**  
**Marking Pencil**

Marking film prior to installation of windows with unusual shapes. Circling a contaminant before pulling back the film to remove it. Marking film edges to check for glass movement on side roll-ups during trimming process.

**MT125**  
**8" Circle Template (30/60 degree)**

**MT126**  
**12" Circle Template (45/90 degree)**

**MT127**

**24" Curved Ruler**

Allows you to make smooth, curved cuts along film during the finishing or pre-trim phases of an installation.

**MT304**

**72" Straight Ruler**

*We offer all our customers the best quality window film at competitive prices.*

**MT106-Master  
Spraymaster 32oz**

Heavy-duty sprayer, chemically resistant. It is equipped with a strong trigger and hold 32 ounces.

**MT101-HG  
25' Replacement Hose and  
Spray Gun**

Replacement hose and nozzle assembly for MT101 and MT101-5

**MT102  
48oz Hand Sprayer**

The Performax sprayer is a lightweight, durable and very affordable pump-up hand sprayer. Hold 48oz and pressure. Adjustable nozzle spray pattern.

**MT101  
3 Gallon Sprayer**

Deluxe pressure sprayer for mounting solution in a stainless steel tank. Hose can reach up to 25' in length. Fill with solution and pressurize with air from any compressor.

**MT103  
Poly 2 Pressure Sprayer 2Qt**

This pressurized spray bottle holds more solution than the 32oz bottles and reduces finger-fatigue eliminating the need for pumping while spraying via a single trigger. Handy for large windows. Has an adjustable spray nozzle.

**MT101-5  
5 Gallon Sprayer**

Deluxe pressure sprayer for mounting solution in a stainless steel tank. Hose can reach up to 25' in length. Fill with solution and pressurize with air from any compressor.

**MT101-G  
Replacement Spray Gun  
Replacement nozzle for  
MT101 and MT101-5.**

**MT188  
Power Trigger Head**  
Ergonomic trigger with high output and durability.

**MT106  
Bottle 32oz**

*We offer all our customers the best quality window film at competitive prices.*

**MT189  
Film-On Concentrate**

1 quart concentrate mounting solution. Use for pressure sensitive adhesives and sputtered copper film.

**MT189-A  
Rapid Tac II (32oz)**

A non-toxic, water-soluble adhesive remover that breaks down and removes adhesive fast. Ready to use.

**MT181  
Dirt-Off Concentrate**

1 quart concentrate cleaning solution. Use for interior automotive window cleaning. Great for removing oily deposits on automotive glass. Used also as an adhesive accelerant to give additional tack for dot matrix areas.

**MT178  
White Scrub Pad 6"x 10"**

Great for cleaning windows prior to installation.

**MT179  
Cleaning Sponge**

**MT405  
Tint Slime (Gallon)**

Tint Slime is a window tint mounting & cleaning solution. Tint Slime can be used to install automotive window tint, paint protection film, flat glass film, and vinyl. Tint Slime is safe to use on interiors, biodegradable and safe.

**MT179-BT  
Reusable Wipes 300pk**

Virtually lint free usable wipe

**MT164  
Tint-Off Adhesive Remover  
(One Gallon)**

Ready to use and specially formulated for the window film industry to make tint removal a snap

**MT146  
Scruber**

Used to reach behind speakers and brake lights. Scrub away adhesive along the bottom edges of sloped rear windows. Uses replaceable white scrub MT178 cut 2"x 3".ed rear windows. Uses replaceable white scrub MT178 cut 2"x 3".

*We offer all our customers the best quality window film at competitive prices.*

**MT195**  
Cutter Head Assembly (Box  
Slitter)

**MT291-72**  
72" Slitter

(20 blades per cartridge)

**MT200**  
Cutter head Assembly  
**MT323**  
Cutter Blade Holder

*We offer all our customers the best quality window film at competitive prices.*

**MT331**

**Thermometer With Laser**

Reads temperatures of solid surfaces. Shows the difference once window film is applied to glass with new reading of solid surface. Not to be used on glass. Batteries included.

**MT169**

**Tint Meter Enforcer**

The Enforcer is a light weight and packet sized meter. It comes with a coin cell battery that will last for up to 2500 uses and is auto calibrating. Measures VLT on roll down windows only.

**MT170-SS**

**Solar UV Meter Kit**

Our UV & Solar Sales Presentation Kit offer a single source for convenient and convincing sales demonstrations. Kit includes: MT317-B, MT169-A, MT170-UV, MT169-B, and the Soft Case.

**MT166**

**Spectrum Detective**

Displays three ratings at a time: UV, Visible Light, and infrared transmission values. Carrying case and batteries included, glass samples not included.

**MT317- B**

**Digital Solar Transmission & BTU Meter**

Used to evaluate solar performance. It provides excellent resolution, reading a low light conditions more accurate than competitors, with no need for adjustments. Batteries included

**MT166-A**

**Transmission Meter TESTING UV, IRR, VLT**

(1400 NM Wavelength Spectrum) Tester Midas Brand / Displays (3) ratings at time: UV, Visible Light Transmission & InfraRed Transmission values./Batteries included. Glass Sample not include

**MT166-ST**

**Heat Sheet Demo Card**

Changes color when it encounters heat, demonstrates heat blocking capabilities of your glass or film.

**MT317**

**Digital BTU Solar Power Meter**

This wide spectrum digital meter measures solar radiant energy intensity directly transmitted through glass in units of BTUs per square foot per hour or watts per square foot. Effective tool showing the relative effectiveness of various films in blocking solar radiant heat. Especially useful for showing how a very dark film may allow far more energy to pass through than a much lighter metallic film. Batteries included

**MT170-UV**

**UV Meter**

Position the meter facing the UV source, such as sunlight or a heat lamp and turn the meter on. The UV result transmission percentage will be displayed. Batteries included

**MT169-TC**

**Tint Chek**

Measures visible light transmission VLT on roll down windows. A small meter that fits into a shirt pocket.

**MT169-PP**

**Tint Meter Inspector**

This Meter Inspector is the newest light meter technology allowing you to measure VLT on all windows in vehicles with auto calibration accurate.

**MT330**

**MIG Manual IG Thickness Gauge**

Used to measure glass and air space thickness in sealed insulating glass units. Carrying case and batteries included.

**MT169-B**

**UV Demo Lamp**

Excellent tool to demonstrate, measure or show how much UV window film keep out. Batteries not included

**MT169-A**

**UV Light Lamp IR**

250 watt infrared heat lamp with metal cage for great tabletop presentations.

**MT170-GL**

**Glass & IG Sample Set**

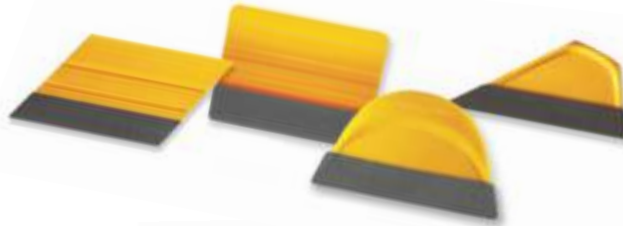

Help illustrate the benefits of your window film. The set includes a total of 6 samples : 2 clear single panel of glass, 2 clear IG windows and 2 low E IG windows. The glass standards can be use to illustrate solar & UV transmission performance. Perform effective before and after demonstrations in front of your customers.

**MT358  
Card With Felt Edge**  
4" hard card with two ridges or bumps. One edge is wrapped in felt.

**MT375  
Installer's Primer Pen**  
Fast and easy to use on all your applications of primer. Works with any brand of vinyl film and can be used anywhere primer is required.

**MT352  
Green Soft Squeegee**  
The 4" Green Soft Flex Squeegee is the thinnest and the softest installation card that we offer. Made from a unique rubber and plastic blend, this squeegee has excellent bend and flex characteristics which make it perfect for applications on curved surfaces.

**MT374  
Rivet Brush**  
Made of stiff bristle synthetic fiber, the Rivet brush made for fleet graphic installers helps form flexible cut and printed vinyl over the rivet surface.

**MT168-D  
30 Degree Blades (Pack 10)**  
Standard duty acute angle snap-off blade for use when precision is a must. Seven cutting edges per blade strip.

**MT372-Y  
Gold Nylon Squeegee**  
This Gold Squeegee comes with a harder and softer side to give you a dual purpose tool all in one card. This card is also more durable than the other plastic squeegees. This card features three rounded corners and one 90 degree sharp corner to help with any shape or application challenge.

**MT362  
Sunny Tucker**  
This tool is a must when applying graphics or PPF to challenging surfaces. Effortlessly glides over the film surface while tucking in, wrapping around and laying down.

**MT365-11  
Molding & Trim Removal Tools (11 pieces)**  
**MT365-5  
Molding & Trim Removal Tools (5 pieces)**

Tools for the easy removal of body fasteners, interior trim pieces, exterior body moldings, wheel hub caps. Made from heavy duty plastic to prevent scratching and damage to vehicle surfaces.

**MT376-2  
Sooper Clip (2 Pack)**  
**MT376-50  
Sooper Clip (50 Pack)**  
Faster and easier than tape or rubber bands. These brightly colored Sooper Clips are designed for efficiency.

**MT361-R  
Replacement Blades for Wrap Cut Knife**  
This is the replacement blades for MT361 knife. Each blade has 4 available cutting edges. 10 blades per pack

**MT361  
Wrap Cut Liner Knife**  
The Wrap Cut Knife is made specifically to cut through just the liner side of any pressure sensitive vinyl graphic and wrap film. This knife will only cut through the paper release liner of the vinyl.

**MT359-R  
Red Suede Blade (Soft)**  
**MT359-Y  
Yellow Suede Blade (Flex-Firm)**  
The Suede Blade comes with a dual layer fabric that gives installers a cushioned, smooth fabric over the edge of the squeegee. The Suede Blade glides over window tint, paint protection film and vinyl graphics/wraps with ease.

PPF

### MT343

#### Stainless Steel Scissor

The 5 3/4" Stainless Steel Scissors allow you to cut paint protection film with precision and smoothness.

### MT373

#### Emblem Removal Tool

This tool is used before the vehicle wrap/vehicle graphic application to remove emblems, logos and badges from the vehicle.

### MT190

#### Mactac Felt Squeegee

Recommended for paint protection film or vinyl graphic installations. The soft felt is designed to avoid scratching.

### MT350

#### Pro Wrap Betty

The ultimate 30 Degree squeegee for all car wrap and vinyl applications.

### MT191

#### 3M Wet or Dry Squeegee

Soft rubber card style squeegee. Recommended for paint protection installations.

### MT357

#### Lidco Felt Sleeve

A felt wrap for any 4" hard card squeegee.

### MT347

#### Banana Buffer

Ideal for wet graphics installation, PPF, windows, and tint. (Pack of 10)

### MT354-A

#### Fusion 5" PPF Black Out Blade

### MT354-AA

#### Angled Fusion 5" PPF Black Out Blade

Designed specifically for paint protection film installs. Features a high content of slip additives to help the tool slide easily across paint protection films.

### MT150

#### 3M Finish Line Knifeless

The 3M Finish is a tape that can be used to cut graphic film without using a knife.

### MT369

#### 5" Hybrid Squeegee Blade

The dual blade design one side soft (orange) and one harder (blue) gives the handle the ability to have two blades in one. The Hybrid squeegee blades are designed to fit perfectly in 5" Fusion Handles.

### MT150-B

#### 3M Bridge Knifeless Tape

This tape prevents paint damage. This products is to create evenly cut graphics bridging from one panel to the next for a professional finish.
